   In accordance with section 6-16a of the Public Limited Companies Act, the board of directors will prepare an independent statement regarding the settlement of salary and other remuneration for executive management. The content of the statement is included in note 3 to StatoilHydro’s annual report and accounts for 2008, which have been prepared in accordance with accounting principles generally accepted in Norway (NGAAP). The general meeting will consider the statement by an advisory vote.

10. Authorisation to acquire StatoilHydro shares in the market in order to continue implementation of the share saving plan for employees
    Since 2004, the company has had a share saving plan for all employees of the group. The purpose of this scheme is to enhance a good business culture and encourage
loyalty through employees becoming part-owners of the company. In Norway, almost 80% of the employees participate in the share saving plan. At the annual general meeting in 2008 it was decided to authorise the board to acquire shares in the market for this purpose. This authorisation expires on the date of the annual general meeting 2009. It is proposed that the general meeting gives the board a new authorisation to acquire shares in the market, in order to continue the company’s share saving plan.

Proposed resolution:

"The board of directors is authorised on behalf of the company to acquire StatoilHydro shares in the market. The authorisation may be used to acquire own shares at a total nominal value of up to NOK 15,000,000.

Shares acquired pursuant to this authorisation may only be used for sale and transfer to employees of the StatoilHydro group as part of the group’s share saving plan, as approved by the board of directors.

The minimum and maximum amount that may be paid per share will be NOK 50 and 500 respectively.

The authorisation is valid until the next annual general meeting, but not beyond 30 June 2010.

This authorisation replaces the previous authorisation to acquire own shares for implementation of the share saving plan for employees granted by the annual general meeting on 20 May 2008."

11. Amendment of the articles of association

In connection with the implementation of the merger between Statoil and Hydro’s petroleum operations on 1 October 2007 the company’s business name was changed to StatoilHydro ASA, cf. Section 1, subsection 1 of the articles of association. It was agreed that the name StatoilHydro ASA would be a temporary solution and that proposals for a new name would be submitted at the company’s ordinary general meeting in 2009. After a lengthy process with the purpose of implementing the terms of the Merger Plan, and based on the statement given by the Ministry of Petroleum and Energy that they as the majority shareholder will only vote for Statoil as a name or a name where Statoil is the dominant part of the name, the Board proposes that the company name is changed to Statoil ASA.

Section 1, subsection 1 of the articles of association contains a description of the business operations which the company can engage in. The description is associated with different forms of petroleum operations, but the provision also contains a passage stating that the company can manage “other activities”. For some time the company has engaged in the development and production of alternative forms of energy to petroleum, including wind power, bio fuels and hydrogen. In the view of the board it is natural that this part of the business operations should be better expressed in the articles of association by it also being stipulated that “other forms of energy” are included in the company’s business operations.

Proposed resolution with respect to an amendment of Section 1 of the articles of association (amendments underlined):
“The Company’s name is Statoil ASA. The Company is a Public Limited Company.

The object of Statoil ASA is to engage in exploration, production, transportation, refining and marketing of petroleum, petroleum-derived products, and other forms of energy, as well as engaging in other business. The activities may also be carried out through participation in or cooperation with other companies.”

The board is authorized to decide the date for implementation of the amended articles of association, but the date must be no later than 1 January 2010.

12. A shareholder has proposed that the following resolution be adopted:

“StatoilHydro shall withdraw from tar sands activities in Canada.”
